However the real unhighlighted request is to reduce Tree 15 which is a mature and beautiful high tree, probably planted 100 years ago. A few years ago, No 11 reduced the same tree by 30%, so damaging its appearance and health. I unsuccessfully opposed that reduction and we live with the sad consequences. A further 30% reduction now would endanger the same tree which is a principal feature of our garden.. I therefore oppose its reduction by such a draconian amount.
