

Proposed Door Specification

Door manufacturer: Astraseal

Door Style: Lyndhurst

The existing door is to be replaced with a single, hinged composite door designed to comply with the requirements of BS 6375 Performance for Doors and Windows and PAS 24 Enhanced Security Performance Requirements for Doorsets and Windows in the UK. These new doors will have a high density, insulated core and high impact resistant GRP skin. The proposed doors will also be fire rated FD 30 and will be of a material which provides excellent weathering performance and so require little maintenance, hardware and furniture can also be replaced with ease.

The new doors will aim to broadly replicate the existing aesthetically and will be fitted to the existing aperture requiring no alteration to the brick lintel or surrounding masonry. The doors come in red, white, blue or green and can have obscured or clear glazing.
