**Subject:** MORRISON'S SUPERSTORE AND PETROL FILLING STATION, CAMDEN GOODS YARD, CHALK FARM ROAD, LONDON NW1 8EH APPLICATION REF. 2017/3847/P

Dear Camden Council,

I write in support of the above application with regards to the proposals for the redevelopment of the Morrisons Superstore and Petrol Filling Station which would form part of the proposed Camden Goods Yard neighbourhood.

I support the proposals as they will bring forward a mixed use community including affordable homes, shops and workspace. The scheme also makes use of an otherwise underused site and creates opportunities for small and medium sized enterprises to start up and expand.

I am particularly pleased about the opportunity for the development to support the sustainable food system in London through the planned rooftop greenhouse. The greenhouse will provide a facility for the UK's first rooftop farm and Europe's second largest rooftop farm; signifying Camden's support for tackling climate change, food security and promoting urban greening. It will also contribute to reduced carbon emissions, water use and local delivery traffic. Further to this the farm will bring an exciting and popular new destination to Camden, bringing with it jobs, training and volunteer opportunities for local young people. Finally it will elevate Camden and London's global reputation as a home to innovative and pioneering new models of sustainable production.

All in all the scheme represents an intelligent set of proposals and offers the chance to bring an exemplary sustainability project to life in the heart of Camden.

Yours sincerely,

Frederic Hoffmann
