2017/4239/P	Richard Huntington	First Floor Flat 99 King Henry's Road	26/10/2017 20:30:48	COMMNT	<p>We live in the first floor flat at 99 King Henry's road and are saddened by the planned development of a fourth storey on the Elliot Square houses opposite us. The addition of an extra storey to not just one house but all of the houses that we look on to will have considerable impact on the view from our flat and the light that we get. What appears from the documents to be like a wall along the other side of King Henry's road will cut out the view of the trees in the square and for a north facing flat it will block the reflected sunlight that comes off the towers on Adelaide road.</p> <p>In addition the over-development of these properties appears entirely unnecessary. The extensions planned are to already substantial properties. They increase the size of those properties without doing anything to increase the housing stock that we so desperately need in the borough. We all need to be vigilant about over development particularly in this part of Camden.</p>
2017/4239/P	Karen Whelan	91 King Henry's Road	26/10/2017 12:45:27	OBJ	<p>I live in King Henry's Road opposite. I am completely opposed to this development on the grounds that it will take away much needed light, for our properties in the block of houses facing these properties.</p> <p>It may also set a process in motion for all of the properties similar to follow the process, which will destroy the look and feel of the area.</p>
