2017/5548/P	Sonalee Parekh	25 South Hill Park London NW32ST	30/10/2017 15:43:59	SUPPEMP ER	We are fully supportive of this scheme from our neighbours. - I like the fact they are local residents and plan to live in the house (read: not developing to flip) - already had initial discussions with immediate neighbours to try and incorporate their feedback (one side had none and the other was fully on board) - no basement - the dormer will allow us to expand limited living space without having to create a basement - no balcony in the back - apart from the skylights, no change to front facade - other approved projects (number 5 in particular) have gotten huge front and rear dormers approved - we are not asking for front, just skylights
