2017/4239/P	Ravin Seencevassen	Flat 2 107 King Henrys Road London NW3 3QX	07/11/2017 22:59:08	OBJ	<p>My wife and I are opposed to this planning application on the following grounds:</p> <ol style="list-style-type: none"><li>1. The proposed additional floor will radically diminish the amount of natural light perceived by the raised ground floor and basement flats on the opposite side of King Henry's Road. The north facing side of our flat already suffers from a lack of natural light currently.</li><li>2. We are very concerned of the precedent this would set. The approval of this project would mean all the houses in the Chalcot Estate along King Henry's Road could seek such extension. I would note the majority of comments in support of this extension are from residents of Chalcot Estate properties. This is further evidence that we are likely looking at such roof extensions along the whole length of King Henry's Road should this planning application be granted. This would result in material changes to the neighborhood as well as years and years of highly disruptive construction work in the area.</li><li>3. Finally we would like to point out that these properties (24-32 Elliot Square) are currently already larger in size to most apartments in this neighborhood.</li></ol> <p>Thank you for your consideration.</p>
