Informative(s):

- 1 Reasons for granting permission. [Delegated]

Temporary planning permission was granted last year (Nov2016 - Jan2017) under application 2016/4942/P for the erection of no.2 marquees of the same size, design and siting as hereby proposed. It was previously found that the structures would, by virtue of their design, positioning and temporary nature; not result in any detrimental impact to the character and appearance of the host listed building or streetscene. As the design remains as previously approved, this consideration is maintained. As these would not be permanent structures or be fixed to any element of the adjacent listed public house, listed building consent would not be required for these works.

During the previous application concern had initially been raised with regard to the potential impacts upon the residential amenities of adjoining neighbours. In order to address these concerns, a Marquee Management Plan was produced following input from LPA Environmental Health officers and secured via condition. The applicants were advised that the acceptability of any further temporary applications would take into account the success of the management of the previous temporary consent. Alongside this submission is a renewed Marquee Management Plan which included management details to be utilised during operation in line with that which was previously agreed. The Council's Environmental Health officers have confirmed that during the period of the previous permission, no noise complaints were received by the Council and so it is considered that the management in line with the management plan had acted to successfully avoid issues of noise and disturbances. On this basis permission for the next Christmas period is considered acceptable, subject to the renewed management plan which is secured by condition and would remain enforceable against should issues arise.

No comments were received following a process of public consultations. The sites planning history was also taken into account when coming to this decision. Special regard has been attached to the desirability of preserving the listed building or its setting or any features of special architectural or historic interest which it possesses and considerable importance and weight has been attached to the harm and special attention has been paid to the desirability of preserving the character or appearance of the adjacent conservation area, under s.66 and s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposal is in general accordance with policies D1, D2, A1, A4, C4, C5 and T1 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework 2012.

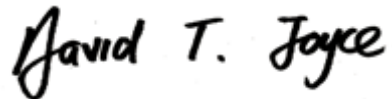

- 2 The applicant is reminded of the temporary nature of the hereby approved development. Should it be intended that similar structures are to be erected in the winter of 2018, temporary permission must again be sought. It should be noted that the assessment of any future temporary applications would take into account the success of the management of the hereby approved temporary consent.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
