12 November 2017

Dear Sir or Madam

Intended works to Tress in a Conservation area, your ref 2017/6298/T

I refer to your letter of 9 November.

I object to felling the ash tree in the rear garden. I know of no reason why the tree should be cut down. It seems in healthy condition and no one has informed me of any damage that is being caused by the roots. I have asked the freeholder if the tree can be pollarded as the branches come very close to my windows in high winds.

Yours faithfully

Mark Webb
