2017/4205/L	Virginia Alison	Flat 20 Russell Square Mansions 122 Southampton Row London WC1B 5AE	09/11/2017 19:48:32	OBJEMAI L	I live on the 4th (top) floor of the rear extension of Russell Square Mansions. The proposed increase in height of 25 Old Gloucester Street is too high and would very seriously affect light coming into the flats below me. I would be less affected by this, but intolerably affected by noise from the proposed green roof. Like the flat roof above my flat, the roof should not be used for recreational purposes. Moreover there should not be any windows in the west wall facing our block to preserve our privacy. I am also concerned about potential noise from any plant or air conditioners.
