2017/6298/T	Prof M Wood	262 Finchley Road	10/11/2017 11:08:27	COMMEM PER	From the map it doesn't look as if the ash concerned is near the cracks to no 23 (perhaps caused by subsidence to a built-on extension). There are currently too many applications to fell trees in this area. They're an amenity for the whole community & enhance the appearance of the conservation area. Reduce the crown as an alternative?
