> Dear Nick Bell  
>  
> my name is Deniz we live at 49 Rosslyn Hill Basement flat NW3, we've got a small self seeded Laburnum in the rear  
approximately 2 meters from the property and on top of the boundary wall, the tree is covered in ivy and is not in great shape, its  
shading my house and neighbours are complaining that it's pushing the boundary wall down. Would it be possible to remove this  
tree and plant one in its place ??
