Exemplary Credit	meets or exceeds the resource efficiency benchmark	
	The percentage of non-hazardous construction waste and demolition waste generated by the project has been diverted from landfill and meets or exceeds the refurbishment & demolition waste diversion benchmarks	
ojects over £300k		
First Credit Management Plan	Where a compliant Level 2; Site Waste Management Plan (SWMP) is in place	
	First credit achieved	
	Non-hazardous construction waste generated by the dwellings refurbishment meets or exceeds the resource efficiency benchmark	
Second Credit Good Practice Waste Benchmarks	Amount of waste generated against £100,000 of project value is recorded in the SWMP	
	Pre-refurbishment audit of the existing building is completed	
	If demolition is included as part of the refurbishment programme, then the audit should also cover demolition materials	
	Where the first two credits have been achieved achieved	
Third Credit Best Practice Waste Benchmarks	Where Non-hazardous demolition waste generated by the dwellings refurbishment meets or exceeds the refurbishment & demolition waste diversion benchmarks	
Exemplary Credit	Where non-hazardous construction waste generated by the dwellings refurbishment meets or exceeds the exemplary level resource efficiency benchmark	
Exemplary creati	Where Non-hazardous demolition waste generated by the dwellings refurbishment meets or exceeds the exemplary level diversion benchmarks
