| 2017/5365/P | Dr Victor Miller | Flat G 15 West Heath Road Hampstead NW3 7UU | 20/11/2017 11:32:54 | OBJ | <p>As a resident of the block of flats,I wish to object to this planning application as it would be harmful for the character and appearance of the building overall and adversely impact on the appearance in a conservation area.</p> <p>The proposal would result in a loss of privacy for my apartment resulting from the increasing size of the terrace area of the first-floor level. The loss of the existing pitched roof, the increase in size of the first floor terrace and height of the proposed balustrade, would adversely impact on my sight line, and disturb the harmony of the existing roof profiles and thus the design integrity of the building as a whole.</p> <p>The Proposed height of the extension and brick balustrade together with the size would be visually harmful a conservation area. I am concerned that the increase in terrace size will create a visual and potential noise disturbance.</p> |
