Ref. 2017/6080/P.27/29 Whitfield Street W1T 2SE

Dear Laura Hazelton,

27/29 Whitfield Street is situated in a very special small corner of London, it abuts the charming C18th terrace, Colville Place with it's array of flowering shrubs and with the listed modern house at No1 which sits so well with it's Georgian neighbour.

Opposite is the much used Crabtree Fields an important example of modern garden design.

All this would be seriously compromised if the proposed insensitive and inappropriate roof extensions at 27/29 were allowed.
