2017/6059/T	Consuelo Phelan, hon. Tree officer,	54 Belsize Park NW3 4EE London	22/11/2017 18:25:47	OBJ	It seems a huge pity to lose four trees from this site, especially as no roots of silver birch were found, just assumed that they were there. These are mature trees, at least partly visible from the street, and functioning as wildlife habitat and helping to reduce pollution. I do hope a better solution than destruction can be found.
