Urban Bird Nestbox

DESCRIPTION

This Urban Bird Nestbox is part of our new contemporary range of wildlife habitats with sleek design to suit the Urban environment.

The outer shell of the bird nestbox is made from Clayplas+ which is a composite material of 70% clay and 30% recycled plastics. This material is very durable and comes with a 10 year materials guarantee along with great environmental credentials due to the recycled element. Each outer shell has dual keyhole hanging points to allow the nestbox to be hung square on or as a diamond to suit

The interior of the nestbox is made from natural FSC certified timber, which is great for warmth & breathability. This inner wooden bird box may be removed and has a sliding panel at the rear for access and cleaning. The nestbox entrance hole is protected with a crisp stainless steel 32mm hole protector.

- Contemporary design for Urban living
- Combination of ultra modern material and natural timber
- Different hanging positions - Square on or Diamond
- Stylish, colour coordinated packaging across the Urban Range
