**ROOF OVERS**

Roof is black leather grain finish – other colours available

0.7mm thick, 32 mm profile, 1 metre coverage, single profile overlap.

Fixed with hexagonal headed screws which have black plastic caps fitted.

Slope is formed by top hat section galvanised steel sections – 150mm for top of slope, 75 mm for middle and 0 (the edge of the coldroom)

The edge of the room and top of the slope are sealed with foam tape.

The side and top of the roof are sealed with matching flashing screw fixed to the coldroom sides.

Any abutments to buildings are flashed with 90° angle and silicon sealer.

Black PVC guttering, 50 mm in diameter with down pipe and shoe fitted.
