- Hatch denotes proposed new partition for Nr.32
 - Hatch denotes proposed historical areas to be repair / make good / refurbish

All the original lath and plaster ceilings, cornices, decorative plasterwork and ceiling roses that may have survived to be retained and made good. Conservation paint solvent would be used to peel away historic paint build up to re-expose cornice detailing.

Careful raising of the floorboards, documenting the location and type of fixing of each when removed. Ends not to be broken or cut. To be refixed in place using reclaimed or original iron nails, not screws or stainless steel nails. Note if boards are board end nailed when lifted.

Historic doors in good condition to be refurbished to original state. Removal of MDF later panels to 4-panelled historic doors. Historical door timber frames to be repaired with spliced in timber, repairs where needed and repainted. New ironmongery to match original.

Historic external sash windows to be refurbished: clean and paint to match original. Broken glass panes to be replaced. Care to be taken not to damage existing windows.

Historic skirting to be refurbish. Clean and paint to match original

White painted timber frame. Thermal break NBS L10-390A
White reveal
Segmental Arch 75mm rise to centre
New heat reflective roller blinds

Proposed Second Floor Plan
1.50
