

**Bossinnie (Formerly known as Vine Cottage)
Gayton Road
NW3 1TX**

BEFORE: Brick wall to approx 800mm high, privet style hedge above.

AFTER: Hedge replaced with copper hammered decorative steel plate fence.

Reason - The owner required greater privacy and security than was afforded by the hedge. Rubbish was often lodged and placed within the hedge by passers by. The new fence addresses these problems and the coppered finish provides an interesting decorative feature much in keeping with the style and design of the dwelling. There is NO increase in height or position of the fence, and the front existing door was prepared and treated to match.
