I am writing to express my concerns about LifeCare Residences' proposal to build a retirement complex on the Gondar Gardens reservoir Application 2017/6045/P)

My objections include the following factors:

No affordable units are due to be included
The biodiversity of the reservoir will not be protected
The building works will cause a great deal of noise, disturbance and pollution for a substantial period of time
Residents' parking facilities will be hugely affected for the duration.
Residents will not have access to the facilities or green space developed
And last but not least, the strain on the local sewage system will be severely increased by such a huge development.

kind Regards
