2017/6334/P	Andre Polya	32 Heath Hurst Road London NW3 2RX	06/12/2017 18:46:08	COMMEM PER	The new rear extension applied for, involves a construction the will cover a high level transparent glass aperture, on the east boundary between 30 and 32 Heath Hurst Road. This will result in a loss of light. I object to the submitted design. An alternative design not creating a loss of light is perfectly possible. I wish the Council to take account of my reservation when considering this application.
