2017/5233/P	Lebinh Tu	Flat 21 45 New Compton St WC2H 8DF	12/12/2017 22:08:23	OBJ	My lounge room faces the church directly and as I am on the top floor of the building, the church tower is in my direct line of sight. If the church tower were to be lit up with floodlighting, there would undoubtedly be light spilling into our lounge room. At the moment, we can enjoy the relative darkness outside. There is already plenty of light pollution around the area with Centrepoint and Central St Giles towering over us. The proposed floodlighting would appear intrusive from our lounge room which is where we spend most of our time.
