2017/6334/P	Hampstead CAAC	c/o Flat 6 4 Ferncroft Avenue NW3 7PH	29/11/2017 19:06:12	OBJ	We query the quality of the proposed designs which offer harm to the CA as something that can be viewed from the garden and building of Keats House. Infilling of the 'toothed' format prevalent in the terrace is also unwelcome. Such a proposal requires large areas of roof glazing offering increased light pollution to this fine bacland area
