Our association objects to this application.

The proposed pavilion structures on top of the existing flat green roof are an over development and would be at odds with the scale of the mews style of the existing building and the surrounding buildings. The roof extension would harm the character and appearance of the conservation area.

The proposed development would also have a negative impact on Crabtree Fields public open space. Public open space is in short supply in Fitzrovia and this development would undermine the quality of the space, spoiling it for the many people who enjoy it.

For these reasons the application should be refused.

director and trustee
