

CURRICULUM VITAE

Sven Griesemann MEng CEng MICE

Partner

Sven joined the German Armed Forces in 1993 where he became an Army Officer and Military Engineer. He studied Civil Engineering and Environmental Technology at the University of Federal Armed Forces in Munich specialising in Structural Engineering. He completed his studies in 2000 with the award of MEng (Hons).

Sven gained his first engineering experience during his deployments to Kosovo and Afghanistan where in secondary function he assessed damaged buildings and structures for possible re-use.

After leaving the army in 2005, Sven moved to the UK where he joined Bruce, Cufley & Partners Ltd, a small practice of Consulting Structural Engineers in Rochester, Kent. Sven was involved in a wide range of temporary and permanent works projects in London and the South East.

In January 2013, Sven joined L+C and became an Associate in 2016 and a member in 2017. He is currently involved in the structural design and managing of permanent and temporary works projects.

A selection of Sven's projects are as follows:-

Spitalfields Market – Historic roof refurbishment and temporary works

Bunton Street – New multi-storey steel frame building

Imperial College London – Skempton Building – Refurbishment and extension

University College London – John Dodgson House – Temporary works

Ardingly College – Temporary works

Kent Messenger Building – New multi-storey steel frame building

Marble Arch Tower – Roof Strengthening and temporary works

RAC-Club Pall Mall – Refurbishment and temporary works

Holland Park School – Glass balustrading

Beaconsfield Motorway Services – Extension of existing motorway service station

Fairfax House – Refurbishment and temporary works

The Adelphi – Temporary works
