2017/6784/P	Marianne Nix Griffiths	9 heath villas vale of health NW3 1AW	26/12/2017 13:43:23	OBJ	I wish to object to the outbuilding as proposed. I find it difficult to believe that the outbuilding is currently classified as C3 residential use'Class C3[11] addresses use as a "dwelling house", as a principal or secondary residence.' It was never intended as a residential use building and it is my belief it is incorrectly classified in the application documents as a C3 class building. If it is to be rebuilt as a storage shed without residential use - and it can not be lived in, then I am happy for the shed to be re-instated as a place to do things that would be usually done in a shed. I emphatically object to it being used as a residential building or classified as a residential building and thereby introducing all the legal possibilities of permitted development extensions etc. that the classification of it as Class C3 implies.
