OBJECTION from THE HEATH and HAMPSTEAD SOCIETY

This is a Draft objection as we have only today been made aware of this Application.
Has it been advertised in the Weekly Lists – which we rely on.

1. This is a full application and we hope that you will be able to omit the car-parking on the site – as per the new Local Plan
2. The basement is larger than previously approved – and now living accommodation has been placed at this level needing a massive light-well down to the second basement level – this and the living accommodation should be omitted.
3. The previous planning permission was already very large and this application is even larger – the original outline should be retained.
4. The levels are mis-named – the TWO basements should be named as such – and the new Local Plan should be enforced – and one basement omitted.
Please refuse or ensure the above reductions.
