John Diver

I am writing on behalf of The Friends of Fitzrovia Parks and wish to make objection to the proposal to erect rooftop pavilions at the above. These would be immensely damaging to the quality of the Park it's outlook and feeling of openness.

We welcome the Council's pre-application advice in relation to these pavilions. It would be unconscionable if they departed from this.

The Park is already under threat from the roof extensions being actively promoted by Camden Planners at 27/29 Whitfield street.

No more despoliation of this much loved precious amenity please
