Informative(s):

- 1 Reasons for granting permission.

The size, scale and height of the proposed single storey roof extensions are considered to represent proportionate additions that would respect the original character and appearance of the host properties at 83 Charlotte Street and 7 Tottenham Mews. The proposed extensions would have a traditional mansard design complete with two dormer windows to the front (Charlotte Street) and three to the rear (Tottenham Mews), which would follow the established fenestration hierarchy of the existing properties. The front and rear dormers would be fitted with timber sash windows, which would further preserve the original character of the two buildings.

The majority of the adjoining properties in the terrace along Charlotte Street have been altered previously in the form of single storey roof extensions of varying sizes and design. Therefore, the proposed extension to this building would follow the established pattern of development and would preserve the character and appearance of the surrounding conservation area. With regard to Tottenham Mews, the adjoining properties either side of No.7 are a storey higher. Therefore, the erection of a single storey roof extension would help to restore a degree of uniformity in the terrace whilst preserving the character and appearance of the conservation area.

The maximum height, depth and siting of the proposed extensions would not harm the amenity of any nearby residential occupiers in terms of loss of light, outlook or privacy.

No objections were received following statutory consultation. The site's planning history and relevant appeal decisions were taken into account when coming to this decision.

Special regard has been attached to the desirability of preserving or enhancing the conservation area, under s.72 of the Planning (Listed Buildings and Conservation

Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

As such, the proposal is in general accordance with policies D1, D2 and A1 of the Camden Local Plan 2017. The proposed development also accords with the policies of the London Plan 2016 and National Planning Policy Framework 2012.
