

# The Crown, Existing Photos.

Existing decorative wrought iron screen to be retained and backed up with 30 min fire resisting glass. New half glazed 30 min fire resisting door and scene to be introduced below.

The new hand glazed fire door will be held back on a magnetic retaining holder linked to the fire alarm.

New half glazed fire doors to match the existing entrance doors

Form a new half glazed fire door above the step line down to the gents toilets. This door will be held open on a magnetic hold linked to the fire alarm.

The existing plaster ceiling and dado panelling will remain intact.
