- 1 Reasons for granting permission.

The replacement entrance and fire exit doors within existing openings are considered acceptable in terms of design and material. The works are minor alterations in keeping with the appearance of the host building. Therefore, the proposal would preserve the character and appearance of the existing building and Bloomsbury Conservation Area.

The proposal does not raise any new amenity concerns given the proposed doors are to replace the existing. The proposed doors would not result in any harmful transport or accessibility implications.
