

Our Ref: 63797

Statement of Reasons for Tree Preservation Order Application to reduce the Lime trees (T1, T2, T3 and T4) by 70% in volume in year 1, in addition to consent to return the trees to this size in years 3 and 5  
Located at 54 Compayne Gardens, NW6 3RY.

TPO REFERENCE NUMBER: C735 2007

1. The above tree works are proposed as a remedy to the differential foundation movement at the insured property and to ensure the long-term stability of the building.
2. The above tree works are proposed to limit the extent and need for expensive and disruptive engineering repair works at the insured property. In this instance the estimated repair costs are likely to vary between £12,000 and £60,000, depending upon whether the tree/s can be removed or have to remain.
3. The above tree works are proposed to limit the duration of any claim period and therefore allow the landowner their right to the peaceful enjoyment of their property.
4. It is the case that an alternative to felling such as pruning or significant 'pollarding' of the tree would not provide a reliable or sustainable remedy to the subsidence in this case. We do not consider that any other potential means of mitigation, including root barriers, would be effective or appropriate in the circumstances.
5. We are satisfied that the evidence obtained following completion of our Arboricultural Implication Assessment report completed February 2017, clearly links the lime trees T1, 2, 3, and 4 as the cause of damage to the 54 Compayne Gardens, NW6 3RY.
