

Figure 3

297 Euston Road Lightwell looking from the IOM3 offices at first floor level into the lightwell to view 3rd party A/C equipment related to users of the building in the opposite section of the lightwell. The A/C equipment is adjacent to other residence windows to the left of the A/C units. The pigeon netting and low wall provide the dividing line of the lightwell with IOM3 building and lightwell area in the foreground.
