Informative(s):

- 1 Reasons for granting permission.

The size, location, design, materials and glazing pattern of the proposed replacement double glazed windows would match those of the existing single glazed windows and are considered to preserve the original character of the host and neighbouring buildings. Furthermore, the use of timber frames for the replacement windows would ensure no harm is caused to the character and appearance of the surrounding conservation area.

The replacement windows would not harm the amenity of any nearby residential occupiers in terms of loss of light, outlook or privacy.

The site's planning and appeal history has been taken into account when coming to this decision. No comments were received following statutory consultation.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the Conservation Area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

As such, the proposed development is in general accordance with policies A1, D1 and D2 of the Camden Local Plan 2017. The proposed development also accords with policies of the London Plan 2016; and the National Planning Policy Framework.
