2017/6346/P	Duncan S	98 Hillfield Road	23/01/2018 10:49:32	OBJ	<p>I strongly object to the plans on the following grounds</p> <p>This is an invasion of visual privacy. I have three rooms at the rear of the property (2*bed and kitchen) previously these were only overlooked at an acute angle. This new building being so high and extending so close to mine will remove any privacy I have</p> <p>Specifically the addition of a roof terrace (and patio doors) . This will facilitate and encourage noisy behaviour especially in the evenings and weekends. Especial in summer when we need to have windows open for ventilation. I should point out that #10 has a fire exit but are banned from using it as a roof terrace (believe this was a condition of their planning).</p> <p>I am self-employed and work from home (frequently including shift work) so would be adversely affected by construction noise. A project this large would cause extended inconvenience</p> <p>Similarly, my neighbour is a NHS nurse and frequently works night shifts. Construction noise will impact her sleep during the day</p> <p>it is out of character and keeping with other properties</p> <p>Traffic problems Alfred road is a well-used rat run</p> <p>It sets an unacceptable precedence and other properties that may do the same</p> <p>Reduces the value of my property value</p> <p>I did not get an acknowledgment for the previous objection, so resent with a few more points</p>
2017/6346/P	Fiona	98 Hillfield Road	23/01/2018 11:00:22	OBJ	<p>If we proposed a similar extension you would quite rightly object. Please show some respect to your neighbours</p>
