2017/6737/P	Guy Neale	17 The Mount London NW3 6SZ	24/01/2018 05:52:22	COMMNT	We have two windows that open onto the RHS of the house. The main concerns are the reduction in light to those windows and potential loss of privacy caused by the extensions to the first and second floor. I'm hopeful these can be addressed through the materials used in construction but would need to understand that in detail before being comfortable with the planning
