2017/6346/P	Jochen Roder	2 Orestes Mews	24/01/2018 10:46:14	APP	<p>Hello,</p> <p>i noticed the recent planning permission. I'm worried on a few grounds: first we had an endless amount of these kind of extensions in Aldred Road .. lilke when one finish the next starts. They seem to grow more and more. The Plan to me looks like the massive extend outside previous range. The extra floors are a worry that they might overlook our patio from there areas .. which wasn't before. Lower Ground floor extension sounds like massive dig out, these house are massive already don't think that is needed? The noise levels are very high for the last few works that lastet 6-9month... they would constantly work on saturday from 7:30 til evening. Sometimes they even came an Sundays to drop gear. I would love to the county to limit work times on Saturday and forbid it on Sundays. The size of the building plan looks to me that it massive will stick out vs the other building. Would appreciate it if the council would start to clamp down on this noise building works.. i understand that everyone has their right to have changes done at their homes but recent activity has been very obtrusive and constant noise level was very high that you struggled to enjoy any time at home.</p>
