2017/6506/P	Lucy james	6 Willoughby road	25/01/2018 23:21:57	OBJ	The fire escape from the basement would require part or full demolition of the wall to access Willoughby Rd changing the frontage towards Willoughby Road) including installation of external staircase and lightwell. The building works have already been hugely disruptive with noise, skips, Earth, sand , clay and permanent dust covering everything in a 50yard radius. The footprint should not be breached it is a clearly,marked boundary for a reason. Basements need to be stopped not extended, especially to someone who has already disregarded the law by digging outside the footprint without full planning permission
