Dear Oluwaseun,

I refer to the attached consultation.

We have had a spate of these applications for the installation of phone boxes in Kentish Town (some other officers are looking at other applications).

We have a concern of a proliferation of these boxes in our area and the potential for "street clutter". We are not a rural location where mobile phones signal can be problematic and we wonder why so many are required. Many (most?) people use mobile phones these days and we wonder why they are needed. Will you take this into account when considering these applications?

Kind regards

Paul Seviour
KTNF
