Dear Mr Yeung

Please see below an objection to application 2017/6993/P.

Due to the fact that there has been a 60% increase in the number of F&B outlets in Neal's Yard over the last two years I am objecting to the plan to turn Unit 3 into a permanent F&B outlet. This will further upset the balance and ambience of Neal's Yard which is rapidly becoming a loud and busy Restaurant zone, which generates more footfall and food garbage than it can already cope with, as opposed to a balanced spot of tenants, business, retail, cafes and restaurants - which is the main reason people love the Yard and flock there.

Kind regards  
Paul Hope
