

FAO Charlotte Meynall

Thank you for allowing me to comment on this planning application regarding the installation of a telephone kiosk at the location.

I strongly object to this planning application. Please find my reasons below.

COMMENTS

- Telephone kiosks are no longer used for their original purpose due to the fact that nearly every person is in possession of some kind of mobile device thus negating the need to use fixed land line telephone. As a result of this the phone boxes in The London Borough of Camden have now become 'crime generators' and a focal point for anti-social behaviour (ASB).
- My own previous experience of policing Camden highlights the above ASB, ranging from witnessing the taking of Class A drugs, urination, littering, the placing of 'Prostitute Cards', graffiti, sexual activities and a fixed location for begging. All of which have occurred within the current telephone kiosks. Also, due to poor maintenance any that are damaged or are dirty do not get cleaned, which makes the telephone kiosk unusable and an eye sore. Following the 'Broken Window' theory, if a location looks and feels that it is uncared for and in a state of disrepair then this leads to other criminal activity occurring within that location.
- The introduction of the telephone kiosk will only increase the above ASB, as it conceals the activities of what is occurring inside the actual space and prevents police or passers-by seeing what or who is in/near there. This generates for the latter a fear of crime especially in regards to begging. As they will use the phone box as a cover and as a back rest when they sit on the floor, when the footpath is reduced in width even more by their presence pedestrians have to walk past closely and therefore this generates an uncomfortable feeling for them.
- The extra lighting produced by the kiosk and the space it uses up in the public realm will also create an added distraction to an already cluttered street space. Any CCTV monitoring the area will be effected by this and therefore any crime prevention/detection properties they produce is lost.
- Recent media reports have highlighted the increase in planning applications submitted to local planners for the construction of telephone kiosks. These were proven to have very little or no benefit to the local community especially in regards to the facilities that they are alleged to supply. The main reason busy locations with a high pedestrian and vehicle activity is chosen so that the telephone kiosk can be used as advertising space.
- For the above reasons I object to this planning application

Kind Regards

Jim
