One reservation: the door to the WC on the plan looks as though it would be impossible to get in and close it with any ease. Totally impossible with wheelchair or walker, or even a stick, I think. There is space to correct this.
2018/0182/P	Kate Hobsbawm	45 Swain's Lane	08/02/2018 10:40:18	OBJ	We are concerned that building into the side alley between the properties up to the property line sets a bad precedent and eventually, if many houses did this, there would be no separation between houses (no longer semi-detached, but all attached). The look and feel of semi-detached houses, with the light and air between them is a big part of the character of the area and the street. As well as cutting down a source of light to the neighbouring house.
