2018/0140/P	Robert Alexander	3 Gillies Street Kentish Town London NW5 4DL	14/02/2018 16:21:08	OBJ	<p>Here we are again...Well, the Objections that I forwarded to you dated the 25th December 2017, still stands true and the concerns raised are unresolved - So there is no change. I still Object.</p> <p>However, the issue of nuisance has caused me to write to you again so that we can understand each other...</p> <p>It is bad enough to have to tolerate the noise and loud radio music of the construction workers, but just yesterday (13th Feb.) they pulled my T.V. aerial cable out of its junction box on the roof where it has been for 40 years. Now I have no T.V. (No Signal) which is not good since I am a shut-in and Freeview is all that I have. Have'nt I got enough problems to deal with? (medical and otherwise). I hope you can make a wise decision. Thank you for your time and sorry for being such a downer!</p>
