

Dear Mr Fowler

I am writing to support the objections to the above application on these grounds: (1) the Roof Plant Enclosure will be a new and highly visible structure; (2) it will have an adverse impact on the nearby listed buildings; (3) it does not respect local context and character; (4) it will be extremely noisy; (5) it will involve a substantial increase in space to the detriment of neighbours; and (6) the proposed expansion of terraces at the back facing Christ Church constitutes a material and unsuitable development.

Sincerely

Lord Collins of Mapesbury, LLD, FBA (Lawrence Collins)

S
