Informative(s):

- 1 Reasons for granting listed building consent:

The application site is a post-war copy of a 19th-century townhouse, listed grade II and situated within the Bloomsbury Conservation Area, and which was formerly used as an electricians' college.

The applicant is in the process of converting it and wishes to replace an existing dry riser inlet valve with a new one. The application is retrospective.

The proposed works do not harm the special interest of the grade-II-listed building or the character and appearance of the Bloomsbury Conservation Area..

The application has been advertised in the press and by means of a site notice, whereby there were no consultation responses. The site's planning history has been taken into account in making this decision.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the NPPF.
