- 3 All new work and work of making good shall be carried out to match the existing adjacent work as closely as possible in materials and detailed execution.

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 The site is a 19th-century former warehouse, listed grade II and forming a positive contribution to the Seven Dials Conservation Area, now used for retail purposes.

It is proposed to knock down a non-original wall at ground-floor level to amalgamate two small spaces. A non original staircase to basement level is to be moved to a different position. While the basement contains iron columns and brick jack arches, the part where the staircase is to be sited is a modern concrete section. The original proposal comprised a flight of stairs that could not be fitted between two downstand beams in the basement. This has been revised so that the stair will now fit without significant structural alteration.

The proposed works will not harm the special interest of the grade-II-listed building.

The site's planning history has been taken into account in making this decision.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the NPPF.
