2018/0116/P	Alon Shapira	24 Winchester Road NW3 3NT	15/02/2018 10:56:00	COMMNT	Please refuse this application for the installation of an air source heat pump. Following personal research and discussion with my neighbours in the Winchester Road terrace directly behind and adjacent to 148 Fellows Road, it is evident that the proposed device will destroy the peace in the neighbourhood. One of my neighbours has questioned the 'promise of a sound reducing enclosure', which begs the question of its necessity. Indeed, it seems incongruous with the ethos of the conservation area of our neighbourhood, and the many should not suffer for the sake of one. Which magazine suggests an alternative 'solar photovoltaic panels' or 'a wind turbine' where applicable. The former solar panels seems the more appropriate and applicable given the size of the building in 148 Fellows Road.
