2018/0230/P	Brian Lake	9 Healey Street NW1 8SR	23/02/2018 12:53:39	OBJ	<p>We live immediately opposite No.8 Healey Street.</p> <p>We object to the configuration of the front elevation.</p> <p>The extension may not be obtrusive from the street, but will seriously overlook our top floor bedroom.</p> <p>You will be aware that the two schemes currently in place both place plastic bushes in front of their windows, presumably to protect their own privacy.</p> <p>We suggest that the applicant looks at other designs which do not provide for a larger open area at the front, and for the application to be reviewed with regard to overlooking.</p>
2018/0230/P	Polly Farquharson	7 Hadley St London NW1 8SS	18/02/2018 17:23:55	OBJ	<p>I object to an erection of a mansard roof any higher than the existing small roof extension.</p> <p>There have been recent mansard roof extensions permitted at no's 14 and 16 Healey St which are much higher than the chimney stacks and which cause our property to be overlooked and which detract from the existing building proportions and block the light. I do not wish to see any further constructions of this type allowed.</p>
