2018/0847/P	Miles Halford	5 Cannon Place London NW3 1EH	07/03/2018 12:24:03	OBJNOT	<p>The proposed extension is quite a substantial addition to 2 Cannon Place and would extend into a site where development has been successfully resisted over the years , mainly because it would result in overdevelopment of a pleasant suburban street.</p> <p>It will come higher than the street in Cannon Place.</p> <p>2 Cannon Place is a very substantial building and has already been extended upwards. The owners are now seeking to extend sideways, presumably to gain more lateral living. It is not unlikely that, if permission is given to extend at the proposed level, they would wish to extend the higher floors too.</p> <p>The proposed extension will interfere with the outlook from 3, 5 and 7 Cannon Place, all of which look on to a substantial green corner of Hampstead.</p> <p>Christchurch is a major landmark in Hampstead and can be seen all over London. The green open space around it, even at low level, adds immensely to the pleasantness of Hampstead.</p> <p>The house has been only intermittently occupied since it changed hands to the present owner in June 2016.</p> <p>We object to the proposed extension and ask the Council to refuse permission</p>
