If Yes, please complete the following information about the advice you were given (this will help the authority to deal with this application more efficiently):

🖲 Yes 🔾 No

Office	r name:							
Title:	Miss	First name:	Sofie	Surname:	Fieldsend			
Refere	ence:							
Date (DD/MM/YYYY):		30/11/2017	(Must be pre-application submission)					
Details of the pre-application advice received:								
	Comments were returned from LBC; 06/02/2018, REF: 2017/6697/PRE							

The main comments of concern on this for- mer proposal were:

• The scale, depth and design was consid- ered to harm the character of this positive contributor and the setting of the conserva- tion area.

• The glazing is considered to be excessive and harms the character of the host property, conservation and the amenity of the neigh- bouring properties as it further exacerbates issues of overlooking and loss of privacy.

Since this application the design has been revised to eliminate the proposed massing at the rear and better consider the potential overlooking issues. Further conversations have been had with the council to refine the design in line with their comments.

# 6. Pedestrian and Vehicle Access, Roads and Rights of Way

Has assistance or prior advice been sought from the local authority about this application?

Is a new or altered vehicle access proposed to or from the public highway?	$\bigcirc$	Yes	۲	No

## 8. Authority Employee/Member

With respect to the Authority, I am: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member

Do any of these statements apply to you?

### 9. Explanation for Proposed Demolition Work

Why is it necessary to demolish all or part of the building(s) and/or structure(s)?

Minor demolition works will be required to the lower ground rear to allow the lower ground area to be extended.

This will include the rear wall to be demolished to allow a new extension of approximately 800mm beyond the existing build line. This new building line will

align with no. 09.

The previous extension at Lower Ground is 2.5m deep by 3.7m wide and creates a small terrace at ground level with a timber stair down to a sunken garden. The existing timber stair will be removed as it is very narrow and steep and in poor condition. The wall to the existing lower ground rear extension

will be demolished to widen the lower ground rear extension by approximately 650mm.

No excavation works will take place below the existing foundation level as the garden is level with the lower ground floor.

## 10. Materials

Please state what materials (including type, colour and name) are to be used externally (if applicable):
